

FACTS ABOUT ELEPHANTS

Elephants have trunks that they use for a variety of different things. Elephants use their trunks for smelling, grabbing food, to lift things, digging, and more.

ELEPHANTS CAN SWIM

While it may seem like they would be too heavy, elephants can swim. They use their trunk as a snorkel in the deep water.

ELEPHANTS CAN EAT A LOT

Elephants, especially those in the wild, can eat anywhere from 100-1000 pounds of vegetation in a 16 hour period.
